EXPERIENCE

Bowen Media — Senior Full Stack Developer

2019 - PRESENT

Design, develop, and maintain complete websites for a variety of high profile clients, typically with React/Next.js and Craft CMS.

This includes building out a fully functional backend with any API services, building the frontend and implementing the designs to spec, and managing other developers who work on the project.

View an in-depth overview of the projects I've worked on at Bowen here.

GameLow — Lead Frontend Developer

2019

Implemented responsive, functional designs; Added user functionality and hooked up our frontend to some of our backend services.

Keeped — Project Manager

2013 – 2016, 2017 - 2019

Lead large teams to complete web projects on time and within budget.

Some past clients include the oldest comedy club in the world, the largest boutique furniture company in Omaha, and one of the largest medical software companies in NJ.

Trendstar — Marketing Manager

2016

Managed global distribution and shipment of ecommerce products. Ranked products to the first page of Amazon for keywords we targeted.
